

Examination	Institute	Year	Performance
B.Tech	VIT Bhopal	2027	8.56
Class XII, CBSE	Bright Career School, Purnea	2023	First Class
Class X, CBSE	Chinmaya International Residential School, Coimbatore	2021	First Class with Distinction

SCHOLASTIC ACHIEVEMENTS

- Secured 3rd position in National Science Olympiad (NSO) 2019, demonstrating analytical and problem-solving skills.
- Secured 2nd position in International Mathematics Olympiad (IMO) 2019, showcasing strong mathematical foundations for ML research.
- Achieved a perfect 100/100 in Mathematics in Class 10 CBSE Board Exams, highlighting aptitude for quantitative analysis.

INTERNSHIPS AND PROJECTS

- SDE Intern** May'25 - Jun'25 | Dynamatix Analytics Pvt. Ltd., Hyderabad

On- Site
- Performed UAT/QA, API testing (Postman), and bug tracking (Azure DevOps); gained backend exposure (Node.js, TypeScript, MongoDB).
- Junior Intern** Jul'25 - Present | Transition Computing India, Hyderabad

Hybrid
- Contributed to automated testing using JavaScript, API validation, and QA processes in an agile environment.
- Phishing Detection Web Extension** Sept'24 - Dec'24 | [Github](#)

Prof. Devraj Vishnu
- Designed an AI/ML-based web extension to detect phishing websites, leveraging supervised learning algorithms for real-time analysis.
 - Performed feature extraction and model training on URL datasets, achieving 95% detection accuracy.
 - Integrated Flask and Django APIs for threat analysis and URL scanning, enhancing user cybersecurity.
- Deep Q-Learning-Based Intrusion Detection System (IDS)** Jan'25 - Apr'25 | [Github](#)

Prof. Devraj Vishnu
- Developed an Intrusion Detection System using Deep Q-Learning, a reinforcement learning technique, to detect network intrusions in real time.
 - Conducted data preprocessing and feature engineering on the NSL-KDD dataset to train the model, achieving improved detection accuracy.
 - Implemented live traffic monitoring and offline log analysis (using .pcap and .csv formats) to evaluate model performance.
- Precision Farming: Soil Monitoring System** Jan'25 - Apr'25 | [Github](#)

Self
- Engineered an IoT-based soil monitoring system using ESP32 microcontrollers and capacitive soil sensors for precision agriculture.
 - Collected and analyzed real-time soil moisture, temperature, and humidity data to support data-driven irrigation decisions..
 - Explored potential ML applications for predictive analytics in agriculture, laying the groundwork for future research.
 - Self-initiated project

POSITIONS OF RESPONSIBILITY

- Hostel Representative, Boys Hostel Block 1 (VIT Bhopal)**

[Aug'24 - Jun'25]
- Managing hostel affairs for 3,500+ students across multiple batches, developing organizational and leadership skills applicable to research team collaboration.
 - Overseeing discipline, mess, hostel sports and floor management with a structured council team.
- Core Member, NSS VIT Bhopal**

[Jan'24 - Present]
- Coordinated community-driven initiatives, including the Mega Plantation Drive and Nukkad Nataks, fostering teamwork and communication skills for research settings.
 - Volunteered at major events like 5th Convocation (2000+ students & parents managed) and Winterfest 2024 (New Year Event).

SKILLS AND EXPERTISE

- Programming Languages: Python, C++, MATLAB, JavaScript, TypeScript, Go, C# , SQL
- AI/ML Frameworks: PyTorch, TensorFlow, scikit-learn
- ML Concepts: Reinforcement Learning, Supervised Learning, Feature Engineering, Data Preprocessing, Model Evaluation
- Web & Backend Technologies: Flask, Django, Node.js, Express.js, Electron, MongoDB
- Tools: Git, Jupyter Notebook, Wireshark, ESP32, GitHub, Postman, Azure DevOps, Render, ESP32
- Cybersecurity Concepts: Phishing Detection, Threat Intelligence, Network Security, Cryptography, Password Cracking

COURSEWORK INFORMATION

- Fundamentals in AI & ML
 - Operating Systems
 - Programming and Data structures
- Theory of Computation and Compiler Design
 - Foundations of Data Science
 - Computer Organization and Architecture

CERTIFICATIONS

- Fundamentals of AI and ML** - Vityarthi - December 2023
- Python Essentials** - Vityarthi - April 2024
- MATLAB Coding** - MATLAB - August 2023
- Goldman Sachs Software Engineering Job Simulation (Focus: Cybersecurity)** - Forage - May 2024
- Blockchain and its Applications** - NPTEL - May 2025

EXTRA CURRICULAR ACTIVITIES

- ELA & FinTech Club Design Teams – Worked on event promotions & branding.
- Institute Event Volunteer – Managed major college events (Convocation, Winterfest).
